

CONCLUSION

The Jerusalem Comprehensive Plan is a culmination of several years worth of review and planning. As the community enters the 21st Century, it must build upon its many assets while addressing conditions that threaten the character of the town. Jerusalem has a proud history and is rich in natural beauty, and these assets must be protected and promoted. The community character could be compromised if future growth and development are not managed properly. This Plan provides the foundation for this growth management.

The vision, policies, strategies, and implementation items set forth in the Plan should be used to guide future actions and decision making. The Plan was designed to be a user-friendly, working document for key town officials and staff members, community leaders and other involved community stakeholders. The activities outlined in the Plan cannot be undertaken by the town's governmental leaders alone. Over the next several years, residents need to come together to complete the tasks included in the Plan. Successful implementation requires ongoing communication and cooperation among the leaders and residents of Jerusalem. Collectively, they can ensure a healthy and prosperous future for generations to come.

Acknowledgements

The Town of Jerusalem would like to thank all of the residents, business owners, and interested stakeholders who participated in the planning process. This document reflects the input, time, and effort of many dedicated individuals.

The following members of the Comprehensive Plan Steering Committee provided tremendous assistance in the planning process. The Town of Jerusalem thanks and recognizes these individuals for their service to the community.

Steering Committee Members

Neil Simmons

Michael Van Wormer

Mary Coriale
